this volume seeks to explore developments in the study of sixteenth and seventeenth century spanish literature over the

past decade through the prism of a homage volume that recognizes the contributions of James A. Parr in his ground breaking 1974 essay in *Hispania* he challenged hispanists to take note of developments in the fields of English and comparative studies not to jump on the bandwagon but to explore the emerging approaches to textual study in order to identify and adapt those aspects that could help to illuminate the field in his own work Parr followed that advice with studies that incorporated new approaches to genre theory narratology and canonicity in order to explore dramatic and prose texts and *Don Quixote* the studies in this anthology make use of many of Parr's innovations indicating that his work has had a long lasting impact on the field of Golden Age Hispanism
